

**MICHIGAN DEPARTMENT OF CIVIL SERVICE
JOB SPECIFICATION**

BRIDGE SAFETY OFFICER

JOB DESCRIPTION

Employees in this job perform a variety of toll collection and bridge safety activities at state-owned and operated bridges.

There are three classifications in this job.

Position Code Title – Bridge Safety Officer -E

Bridge Safety Officer 6

This is the intermediate level. The employee works in a trainee capacity and learns the laws, rules, regulations, methods, and practices needed to perform toll collection and bridge safety tasks.

Bridge Safety Officer E7

This is the experienced level. The employee performs the full range of toll collection and bridge safety assignments. Employees use judgment in making decisions when alternatives are determined by established laws, rules, regulations, methods, and practices. Supervision is generally available if needed.

Position Code Title – Bridge Safety Officer -A

Bridge Safety Officer 8

This is the advanced level. The employee function as a lead worker overseeing the work of lower level bridge safety officers, or others, and performs experienced level bridge safety officer assignments.

NOTE: Employees generally progress through this series to the experienced-level based on satisfactory performance and possession of the required experience.

JOB DUTIES

NOTE: The job duties listed are typical examples of the work performed by positions in this job classification. Not all duties assigned to every position are included, nor is it expected that all positions will be assigned every duty.

Classifies vehicles and as they approach the tollbooth and enters information into the computer.

Collects tolls from motorists according to vehicle classification.
